REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The applicant's newly amended composition and method claims now require a composition containing a mixture of amides and alcohols, a salt of hydrofluoric acid, an acid and an ammonium salt. The prior art fails to teach this specific combination of compounds with the required weight percentages and with the required pH for removing a photoresist from a copper substrate was not taught in the prior art of record. Nor would it have been obvious to modify the prior art of record to obtain such a combination of features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglass McGinty can be reached on (571)272-1029. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
